

The Invisible
touch of light !

TACTEA
TACTILE TECHNOLOGY[®]

www.tactea.fr

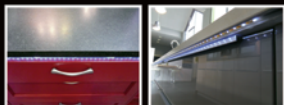

Be part of a technological revolution,
to make your day to day life simpler,
easier and more practical.

TACTEA[®] is an integrated lighting solution for granite, marble, quartz, stone and other material kitchen worktops, offering the opportunity to manage a lighting system using integrated LEDs.

The user takes control of the atmosphere around him using colour and luminosity !

Thanks to its advanced technology, switches disappear and are replaced by a logo engraved into the worktop surface.

- Easy To Use
- Hygienic
- European Technology
- Optimum electrical safety
- Direct and indirect lighting control
- Latest domotic design for dimmers and controls
